2023

NOTAS

SANGIOVESE: es la variedad más cultivada en Italia y la que tiene la mayor diversidad clonal. Este clon pertenece al Sangiovese de Romagna. Aporta notas florales, frescas elegantes.

CABERNET: variedad universal, se cultiva en todas las latitudes y altitudes. Aporta cuerpo, taninos, estructura y fuerza. Nuestro Sangiovese/Cabernet no se añeja en barricas; su frescura y elegancia exaltan los aromas primarios de las uvas. Sangiovese se cultiva en el Viñedo “La Joya” en Valle de Guadalupe. La variedad Cabernet se cultiva en el viñedo de Llano Colorado, Delegación San Vicente.

VISTA: Violeta, brillante con ribete ligeramente rosado; propio de un vino joven.

AROMA: Intensidad media donde predominan los frutos rojos frescos; cereza, fresas y frambuesa. Encontramos una nota a flor de Jamaica que predomina al final.

GUSTO: Armonioso, balanceado y elegante. Buena acidez con taninos sutiles y estructurados; amable a cualquier tipo de paladar. Ligero y balanceado en boca.

MARIDAJES: Pastas, cerdo o platillos sencillos como pizza, ensaladas o hamburguesas.

These two international varieties have been grown in the Guadalupe Valley for decades. Their character and quality are well known by wine connoisseurs around the world. In our area, they find the perfect climate and the ideal terroir for producing excellent quality wines. Each variety was harvested at the ideal time and then fermented on its own.

The vinification is done in a traditional way in stainless steel tanks. To preserve the character and intensity of the fruit, this wine is not aged in Wood and it is bottled before the following harvest season.

COLOR: Purple-red with a pinkish shade in the edge, proper of a young wine.

AROMA: Medium intensity, fresh red fruits such as strawberry, cherry and raspberry. Hibiscus floral note fills the nose at the end.

TASTE: Medium to high acidity, and low-tannic structure; kind to any type of palate. Light and balanced in mouth.

PAIRING: Pastas, pork or non- elaborated dishes like pizza, salads or burgers.
