

NOI

Young wine, no oak, simple characteristics, simple spirit, not much maturity, only the one given by its essence obtained from the plant and the land that witnessed its birth. Just as in a young person, attributes such as simplicity, joy and imagination, but also energy, passion, determination and the desire to go out and eat the world, mark the identity of **NOI**, Catalan term to call youngsters, in spanish "chamacos". We were called this way, while spending time in the countryside, with things as simple as a paper boat, a spinning top or a slingshot, while trying to conquer this, our own world.
